Those little snippets of fabric left after you put the finishing touches on a new favorite quilt are always hard to part with, aren't they? There is something so darling about those little quilty scraps!

This collection was inspired by some hard-to-part-with little snippets – those quilting memories we didn't want to let go. With several gorgeous florals, a Bonnie & Camille measuring tape print, little scissors on the selvage, quilt blocks and dots – of course! – these Little Snippets are sure to steal your heart. Now you'll want to hang on to even the tiniest piece too.
